They are optimized for mobile devices and can be spiced up with one of the numerous apps available from the Wix App Market. Wix is an ideal website builder and all waliworkshere's made websites are from Wix's platform and for all the right reasons:

- You can use support services 24/7 whenever you get stuck with something.
- You can also connect your own domain. For instance, if you have an existing domain then you can use it here.
- You will get a domain, hosting, storage, Google analytics in the premium plan.
